

HOOVER URGES SUGAR RATIONS

Washington, D. C., May 8.—Sugar rationing for manufacturers of non-essentials and an agreement between the United States and foreign countries not to bid against each other for this commodity were suggested today by Herbert Hoover as means of relieving the present sugar situation.

BARNES AGAINST WHEAT BAN

Chicago, Ill., May 8.—Julius H. Barnes is out in opposition to the plan of a grain embargo against Europe, declaring that it is not feasible.

THE COURTS.

V. S. COMMISSIONER'S COURT.
A. J. W. Schmidt, Presiding.
Walter R. Fowler, arrested Friday afternoon, waived a hearing on a charge of illegally importing 10 grains of morphine and 10 grains of cocaine. Held to federal district court on bond of \$750, which was furnished.

W. D. English, arraigned Friday afternoon, pleaded guilty to a charge of illegally importing from Mexico three grains of morphine and three grains of cocaine. Held to federal district court on bond of \$750, not furnished.

Five men, convicted April 3 for violation of the national prohibition act, fined, and, unable to pay, served 30 days in jail each. The men, who were discharged Friday afternoon, are: Victor Chavez, fined \$250; Gerardo de la Cruz, fined \$250; Jose Oliva, fined \$250.

24TH DISTRICT COURT.
Judge W. D. Herra, Presiding.
Martin R. Martinez vs. Pedro Martinez, suit for divorce, granted.

41ST DISTRICT COURT.
Judge F. R. Price, Presiding.
O. L. Cullay vs. Mrs. Burroughs Cullay, suit for divorce, granted.

60TH DISTRICT COURT.
Judge Ballard Caldwell, Presiding.
Vidalia R. Underwood vs. Thomas Lee Underwood, suit for divorce, filed.

JUSTICE COURT.
Justice Clark Wright, Presiding.
Francisco Alamo, charged with theft over \$100, dismissed.

JUSTICE COURT.
Justice H. B. Rawlins, Presiding.
Francisco and Jennie Landa, charged with being fugitives from justice, released on \$2500 bond each.

WOMEN START "HATLESS" DRIVE
Springfield, Mass., May 8.—Enter the "hatless" drive.

Prominent club women have formed an organization the principal purpose of which is to reduce the highest cost of millinery by going without their "chapeaux" during the warmer weather.

The movement, which is gaining many recruits, is expected to result in a saving of many hundred dollars to the women.

The Mystery of KLEEN-MAID

will be solved in The Herald of Monday, May 10.

"RENEW IT WITH A HEWITT"

Common Sense

Common sense can be applied to the buying of Tires with as much profit to the purchaser as in the trading of horses.

A good high grade tire which will give more mileage with less trouble than another make is the logical tire to buy.

Your own common sense combined with the high praise given HEWITTs by HEWITT users is the most convincing argument we know of in favor of HEWITTs.

Come in and examine a HEWITT—get the facts from some HEWITT user—then use common sense.

Seek To Raise Endowment For Children's Home

In keeping with the sentiments of mothers' day, the executive committee of the children's home and hospital at Albuquerque, N. M., is campaigning to raise \$150,000, with which to equip and endow a charity hospital for crippled children in the southwest.

Within the southwest area that would be served by such a hospital, are more than 2000 crippled children, practically all of whom could be cured under proper surgical care. The hospital board plans to build in time a series of buildings at Albuquerque to accommodate all the crippled children of New Mexico, Arizona, west Texas and southern Colorado. At present a modern, four-story building accommodates hundreds of children each year.

The hospital at Albuquerque is the only hospital devoted to the charitable care of crippled or sick children in the region extending from Denver on the north to the Gulf of Mexico on the south, and from Kansas City to Los Angeles.

Appreciation shown. Funds for the hospital are being raised from cities and towns and homes in all the four states included in the territory around the hospital and many letters of appreciation accompany the contributions. In many instances mothers have sent money in memory of their sons who died on the field of honor in France.

Heretofore the work of the home and hospital has been greatly handicapped by not having the capacity to accommodate all deserving cases. Contributions asked. In almost every case the treatment needed is of such an extended nature that the average hospital does not care to take the case, or even though the parents of the child are not desirous of the expense of the extended stay, it is impossible for them to take advantage of the hospital in their vicinity.

The superintendent of the concern urges anyone knowing of a crippled child needing charitable help to notify the hospital. It is the motive of all connected with the home and hospital to try to give every child a strong and healthy body.

Anyone wishing to contribute to the fund may either send the money direct to the superintendent of the institution, Dr. C. E. Lukens, at Albuquerque, or through James G. McNary and Eric P. Jones, of El Paso, who are members of the board of trustees.

Mother, Insane, Slays Her Four Children

Elk City, Kan., May 8.—The last chapter in the tragedy which cost the lives of Mrs. Elmer Cowart and her five children was closed here today when the bodies of the mother and her offspring were laid to rest in the same grave. The body of the youngest child, a four-month-old baby, lay folded in its mother's arms.

Mrs. Cowart, supposedly in a fit of insanity, cut the throats of the children and then drew the blade of the same keen knife across her own throat.

The tragedy occurred in the tent home of the Cowarts while the husband, Elmer, was at work in an Elk City mill.

The string of the scorpion in solemnity, even, fatal to man.

Mexican Capital Cut Off

Washington, D. C., May 8.—Mexico City is believed here to have been virtually cut off from communication with the outside world through the destruction of the wire lines by the revolutionists. The state department has received no word from the American embassy at the Mexican capital since Thursday.

In some Mexican circles it was suggested that Carranza probably has closed the powerful wireless station at the capital so as to screen his activities.

No confirmation of reports that the president has left Mexico City has yet been received here.

Saltillo Without a Shot

El Paso, Texas, May 8.—Saltillo, capital of the state of Coahuila, was taken over by Mexican revolutionists yesterday, say unofficial reports today. The federal garrison offered no resistance, it was said. Train service was suspended.

Amunition Shipped in Caskets, Charged, and Douglas Man Is Held

Douglas, Ariz., May 8.—Tomas Soto, a Douglas merchant, who was brought into prominence recently by acting as intermediary for settlement of the strike of employees on the Southern Pacific of Mexico railroad, was arrested here yesterday by officers of the department of justice, charged with conspiracy to send ammunition into Mexico.

Soto was arrested before H. C. Bowler, United States commissioner, and his bond fixed at \$2,000 for preliminary hearing May 12.

The complaint alleged a conspiracy of caskets was made from Los Angeles to Tucson, Ariz., killed to a fictitious address. The weight of the caskets, together with the fact that the addresses were in the names of Douglas, caused suspicion and they were opened, 27,000 rounds of cartridges being found in them, it is alleged.

The official alleged Soto was the purchaser of this ammunition and had ordered the shipment made, Soto is a Mexican citizen.

Plan to House Evicted Tenants in Poorhouse

Bloomfield, N. J., May 8.—Officials here have under advisement a plan to utilize the town almshouse to solve the housing problem should conditions become more acute. It is planned to accommodate a number of families in the almshouse temporarily, in the event that they fail to find more suitable accommodations. A nominal rent would be charged, and the two persons now being cared for in the house would be "boarded out" elsewhere.

AUTOS AND BICYCLES CRASH; TWO RIDERS ARE INJURED

Three automobile and bicycle collisions were reported to the police within the past 24 hours.

At 4 o'clock Friday, Carlos Cano, 2315 Rivera street, was riding his bicycle on Copia street when he collided with an automobile driven by M. F. Bowman, 301 Olive street. The bicycle rider was badly cut in the forehead. He was treated at the police emergency hospital by Dr. John Hardy and later sent to his home.

At 8:30 Friday night Rafael Gonzalez, 15, and his small brother, Martin, were riding a bicycle when they collided with an automobile driven by A. Romero, Alabama hotel. Neither boy was injured.

Stuart Papahl, 2015 Texas street, Friday afternoon, collided with an automobile driven by R. E. Alston, 2303 Tulare street. Papahl's leg was broken. The accident occurred at Texas and Campbell streets. The boy was taken to the county hospital.

Must Have "Good" Scar To Return From Juarez

Beginning Monday morning, all persons returning from Juarez who cannot show a "good" smaller vaccination scar will be vaccinated by city health authorities, according to announcement made Saturday by city sanitarian, H. G. White.

There are several persons suffering with the disease now in the best house and city health authorities insist that several of the cases originated in Juarez. Saturday a city health officer was stationed at the Stanton street bridge, warning all who went across of the action to be taken Monday.

Officers of the department of justice, charged with conspiracy to send ammunition into Mexico, Soto was arrested before H. C. Bowler, United States commissioner, and his bond fixed at \$2,000 for preliminary hearing May 12.

The complaint alleged a conspiracy of caskets was made from Los Angeles to Tucson, Ariz., killed to a fictitious address. A nominal rent would be charged, and the two persons now being cared for in the house would be "boarded out" elsewhere.

JUAREZ POLICE CHIEF 'FIRED'

(Continued from page 1.)

Instead came an indication of insubordination, following as it did the announcement of mayor Gonzalez that he would retain all the police forces. The new chief assumed his duties at 10 a. m. Saturday.

The first train operated since the revolutionists took charge of Juarez, started for Chihuahua City on Friday. A train also arrived from Chihuahua at 7 p. m. Friday. The train carried the first Mexican newspaper to reach Juarez since the revolution. These were sent from Mexico City by way of Laredo.

Attacks Diegues's Loyalty.
The new officials have repeatedly issued statements of the wholesale arrests and persecutions of persons in Mexico City who are suspected of sympathizing with the revolution, by Gen. Francisco Murguía. The latest statement issued regarding the alleged high-handed methods of Diegues is that he has attacked the loyalty of Gen. Manuel M. Diegues, chief in command of Carranza's (former) armies in the north.

He states that Diegues was ordered to attack the Sonora troops, following secession of that state, and that he did not do so, the last heard from him being at Guadalupe, in Jalisco state. It is rumored that Diegues has been making overtures to the rebels along the border.

Gen. J. Gonzalo Escobar, commander in Juarez, states that 1500 soldiers have left Juarez in the last few days for southern Chihuahua, to await the attack on Mexico City. This came as a surprise, as the only troops known to have left were 500 Yaqui soldiers who trained for the south, Friday.

Gen. Escobar expresses the belief that the city of Puebla, Mexico, will fall into the hands of the revolutionists much as did Juarez, without a struggle. He also states that several patriots in the state of Mexico have declared themselves for the revolutionists.

Rebels Sweeping On.
The latitudes of Tehuantepec, in the state of Oaxaca, the capital city, Cordoba, Veracruz, and Aguas, Guanajuato, have fallen into the hands of the revolutionists, according to an announcement made by Gen. Escobar. He said he received his advice officially from Chihuahua City, Tehuantepec, was captured by forces under Gen. Castaneda. It was said. The city of Oaxaca fell into the hands of Guillermo Melendez, Gen. Escobar's brother, led the uprising in Cordoba, cutting off communications with Veracruz, and the garrison at Aguas joined the revolution and the standard of government. General Ortiz Rubio, of Michoacan, Gen. Escobar said.

The legislature of the state of Mexico has joined the army in revolt against the federal government. It was announced. Tolosa, the capital, was reported, cut off from Mexico City. Gen. Francisco Murguía has had an uprising in Michoacan.

Gen. Angel Flores is drawing near Mazatlan, the principal support of Financiera, and the fall of the city is imminent, Gen. Escobar said.

According to revolutionist claims, Gen. Ramon Huerta, the Carranza leader, is "committing suicide" on sympathizers of Gen. Obregon.

Gen. Francisco Urbaleja, commander under the state government, in Chihuahua, has formally declared his allegiance to the revolutionist party, in a letter said to have been written to Gen. Francisco Murguía, commander of the revolutionary army of the northwest.

Chihuahua Governor Arrives.
Gen. Emilio Salinas, brother-in-law of Carranza, provisional governor of Chihuahua when the revolutionists seized the garrison at Chihuahua City recently, arrived in El Paso Friday night. On reaching Juarez, Salinas was escorted to the international bridge by two officers, detailed by Gen. Escobar.

Salinas was captured by the revolutionists during the change of government at Chihuahua, but was later liberated. The former governor never has renounced his allegiance to Carranza, and it was understood here that he would make his temporary residence in the United States.

Mexican Capital Cut Off.
Washington, D. C., May 8.—Mexico City is believed here to have been virtually cut off from communication with the outside world through the destruction of the wire lines by the revolutionists. The state department has received no word from the American embassy at the Mexican capital since Thursday.

In some Mexican circles it was suggested that Carranza probably has closed the powerful wireless station at the capital so as to screen his activities.

No confirmation of reports that the president has left Mexico City has yet been received here.

"THE POPULAR"

Cor. Mesa Ave. and San Antonio St. Mail and Phone Orders Promptly Filled Private Branch Exchange 3200

OPENING

You are cordially invited to attend our opening display of Mid-Summer Millinery

Monday May The Tenth

IN New York, early in April, the Retail Millinery Association of America gave a decided impetus to four seasons in millinery, instead of two as was formerly the custom.

The Popular naturally, being the leading factor in the retail business of the Southwest, was represented in this movement by Mrs. Stalker, head of our Millinery Department.

You are invited to come Monday and see the wonderful results of her visit to New York and co-operating with the leading milliners of America and France in the Four-Seasons Movement.

OF UTMOST INTEREST

NO previous opening occasion at the Popular will prove of more interest than this.

Wonderful mid-summer millinery in Gainsborough type will be seen in many variations, with drooping, trailing trimming and graceful brim lines. Other hats you will see show the Watteau influence in delicate colors and packed under-brim of flowers and ribbons. These styles have been especially designed to wear with the dainty gowns reminiscent of the Dresden shepherdess and the Dolly Varden period.

Never have there been so many hats of the lingerie type. They are exquisitely lovely in color and line—made of organdie, georget, lace, net, maline and all the delicate fabrics.

You are cordially invited to attend this opening display of Mid-Summer Millinery, and there is no obligation whatever on your part to make purchases. Come next Monday without fail.

SEE SPECIAL WINDOW DISPLAY

Special displays next week of summer dress accessories on the Street Floor. Coming—Prices on silks have dropped.

Those who know "Fatsy", and there were many, will remember a woman with a cotton umbrella, faded green with age, which she always carried. It was a sentimental relic and one of her peculiarities was to visit homes where some member of the family had died.

Korea is as large as New York and Pennsylvania combined.

Everything About Cuticura Soap Suggests Efficiency

Does the surgeon who is performing a delicate operation think of his fee while employing his skill to preserve a valued human life? No. If he did he could never be a great surgeon nor would you have confidence in him. It is the Joy of Service, a tremendous satisfaction that he has done something worth while in the world.

How does a great lawyer secure his reputation and your confidence? By thinking of the fee? No. But by giving of his heart and mind to an intricate case and winning out for his client in the face of the seemingly impossible. He also is the Joy of Service. The money result is merely incidental. That comes only by Service.

So it is in all the activities of life. It is so in insurance. Many people think that all there is to insurance is just taking care of the premiums and collecting the money. But I was here and called in the insurance business. I've thought and talked insurance since I was old enough to think and talk. And I know there is a real service possible in selling insurance. I know there is one particular kind of insurance that fits each individual case and that no other kind can fill that case. And I make a business of discovering the right kind of insurance and prescribing it.

I find a real pleasure in doing these things. May I also claim a Joy of Service?

If you have a policy you don't understand, let me explain it to you. Or if you are considering new insurance or more insurance, let me assist you in finding the best policy for you. I'll be glad to do this without charge. It is part of CROWELL SERVICE.

DOUGLAS C. CROWELL

DOUGLAS C. CROWELL AGENCY, Mills Building. Phone 5800-5801.

THE JOY OF SERVICE.

Did you ever know a man who worked in factory or field who ever got very far unless there was in him a Joy of Service—a willingness and pleasure to produce the best results possible? Did you ever know a man who worked just for his wages—antithesis—to be advanced, and thus rise to the top? No. You must show Joy of Service to catch the eye of the managers.
